

ENTRY-LEVEL CIVIL ENGINEER

Stetson Engineers Inc.

212 W. Superstition Blvd., Ste 105; Apache Junction, AZ 85120

(480) 855-3244

mesa@stetsonengineers.com

Stetson Engineers Inc. is recruiting for an **entry-level Civil Engineer** for full-time employment in its Arizona office. Stetson Engineers is a water resources engineering firm with approximately 40 professional engineers, hydrologists, and geologists in offices located in northern and southern California, Oregon, Arizona, and Colorado. The candidate will work out of Stetson Engineers' Apache Junction, Arizona office, collaborating remotely with teammates throughout the company at its five other offices. At a minimum, a **B.S. Degree in Civil Engineering** is required, with preferred work or practical experience of one year or more in areas related to design of civil engineering and water resources projects.

The candidate's responsibilities may include:

Design & Engineering Assistance:

- Pipelines & Culverts
- Pumps & Pump Stations
- Water Tanks
- Flood Control Channels
- Storage Ponds & Detention Basins
- Streambank Restoration and Fish Ladders
- Canals and Dams

Technical Support:

- Water Supply Studies
- Water Rights Studies
- Flood Control Analyses
- Grading Plans
- Detention Basins
- Groundwater and Groundwater Well Investigations
- Water Reuse Projects

The successful candidate will utilize word processing, spreadsheet, and presentation software skills on a daily basis. Typical projects may include assistance with feasibility studies, permitting, preparation of construction plans and specifications, and cost estimating associated with the responsibilities listed above. Creative thinking, a positive approach to solving difficult problems, and strong organization skills are critical requirements for all projects. The successful candidate must possess excellent written and oral communication skills.

Resumes and cover letters may be sent to:
